

### UI Elements

The following is a mostly complete sampling of elements used within Verint Community's end-user facing user experience. When reviewing these styles, ensure that the review also includes varying devices and screen sizes--some UI elements adjust to specific devices and base styles support responsive changes.

Note that these are the base styles and individual widgets may implement custom functionality or variations on these formats to meet the needs of their unique functionality.

**Messages**  
Inline messages rendered above forms or content.

Warning message

Error message

Information message

No results message

**Pager**  
Enables moving between sets of results where endless scrolling is not enabled. Uses the evolutionPager jQuery plugin.

**Progress**  
Displays progress for longer running tasks, primarily for those processing in background processes. Uses the evolutionProgressIndicator jQuery plugin. Three states are shown: processing, completed successfully, and error.

**Full Content**  
The full view of a content item. Also uses the evolutionLike, evolutionStarRating jQuery plugins and the ui-links UI component. Note that many widgets apply customizations to these base style rules.

**List**  
Shows lists of results, often combined with pagers. This example includes filters and sort options but these are not always present.

Filter 1	By Order 1	Ascending
Item 1	12 label	24 label
Item 2	12 label	24 label
Item 3	12 label	24 label

**Threaded Content**  
Shows threaded content, for example forum replies or comments.

**Masonry List**  
Displays visual lists. Uses the evolutionMasonry jQuery plugin. In this example, the items are the same size, but masonry will also place together items of different sizes.

**Tabs**  
Displays multiple pages of content/forms with tab-based navigation. Uses the glowTabbedPanels jQuery plugin.

Tab 1 Tab 2 Tab 3

Content of tab 1.

**Tips**  
Displays a hover-over message over an element. Uses the evolutionTip jQuery plugin or ui-tip UI component.

Hover over the link to see a tip.

**Modals**  
Displays additional content in a modular window. Uses the glowModal jQuery plugin.

Click to open a modal.

**Form**  
The base form format as well as unique form inputs used within Community. Note that validation messages are normally only shown after a form has been completed and attempted to be submitted, the delete button is not always present, and the loading animation next to the submit buttons is normally only shown when one of the buttons are processing.

**Text**  
Description of the text field.

Validation message

**Select**  
Description of the select field.

Option 1

**Checkbox**  
Description of the text field.

**Code editor (evolutionCodeEditor)**  
Description of the code editor field.

```
1
```

**HTML editor (evolutionHtmlEditor)**  
Description of the HTML editor field.

Edit Insert View Format Table Tools

Default Font Normal A A [ ] [ ] [ ] [ ]

**Submittable HTML editor (evolutionHtmlEditor)**  
Description of the submittable HTML editor field.

Edit Insert Format Table Tools [ ] [ ] [ ] [ ]  Enter to post

**Tag editor (evolutionTagTextBox)**  
Description of the tag editor field.

**Color selector (glowColorSelector)**  
Description of the color selector field.

#900

**Date selector (glowDateSelector)**  
Description of the date selector field.

**Date/time selector (glowDateTimeSelector)**  
Description of the date/time selector field.

**Time selector (glowTimeSelector)**  
Description of the time selector field.

**Month selector (glowDateTimeSelector)**  
Description of the month selector field.

**Enhanced select (glowDropDownList / ui-select)**  
Description of the enhanced select field.

Option 1

**Upload or URL link**  
Description of the upload or URL link.
